

PRIMA T

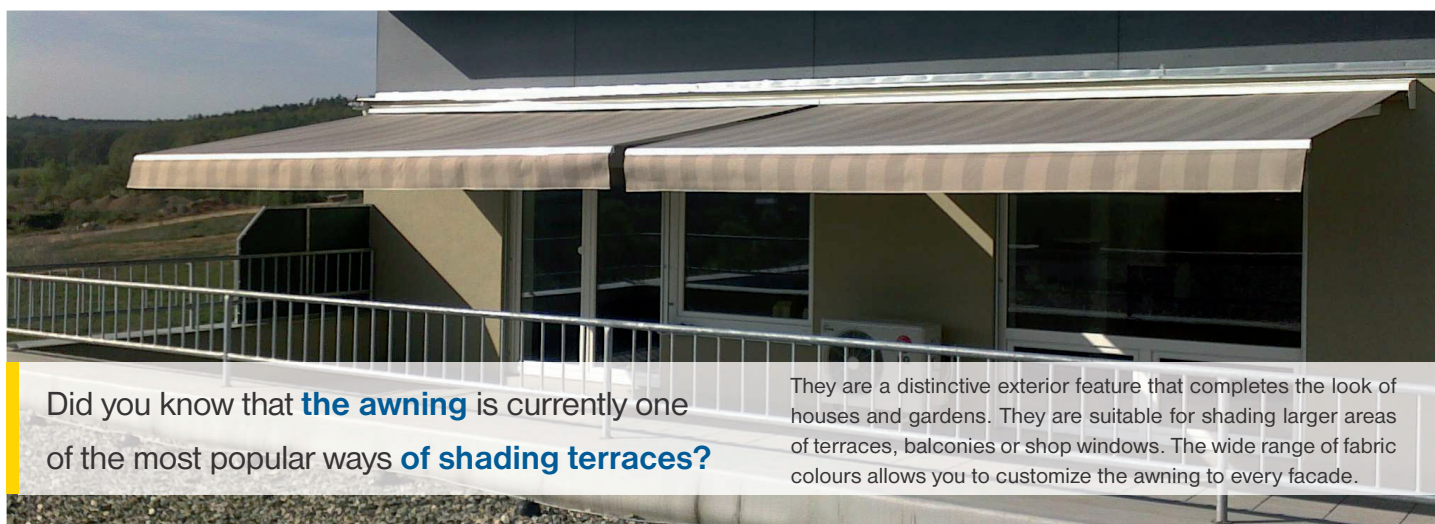

OPEN FOLDING-ARM AWNING

- the most common way of shading terraces of family houses, balconies and outside seatings of cafes and restaurants
- an original and functional accessory of modern facades
- creates a pleasant shade in hot summer days
- when selecting the appropriate type of fabric it also protects terraces against light rain
- prevents penetration of the sunrays into the interior of the house
- protects the garden furniture against the effects of solar radiation and thus extending its life

Did you know that **the awning** is currently one of the most popular ways **of shading terraces?**

They are a distinctive exterior feature that completes the look of houses and gardens. They are suitable for shading larger areas of terraces, balconies or shop windows. The wide range of fabric colours allows you to customize the awning to every facade.

AWNING CONSTRUCTION

- » open version with folding arms
- » construction colour: standard is white RAL 9016; other colour shades are available with a longer delivery term and for an extra charge

LIMIT DIMENSIONS

- » max. width 600 cm
- » min. projection 150 cm
- » max. projection 300 cm
- » inclination depending on the version:
 - T 5°-45°
 - T with a roof 15°

FABRIC PROTECTION

- » an additional roof can be added to the awning to protect the fabric from the weather conditions

FABRICS

- » choice from over 100 colours and types of fabrics
- » acrylic fabrics are colourfast, resistant to adverse weather conditions
- » impregnation repels dirt, water, and prevents rot and mildew

OPTIONAL ACCESSORIES

- » the motorized awning can be supplemented by a sensor:
 - > sun/wind
 - > rain
 - > shock
- The sensors automatically, depending on the weather, give a command to retract / pull out the awning.

CONTROL

- » manual control: crank with a gearbox
- » motor control: electric motor 230 V controlled by
 - > a local switch
 - > control automatics
 - > a remote control
 - > smart mobile devices (TAHOMA system)
