

GARDENA 200/250/250 ZIP

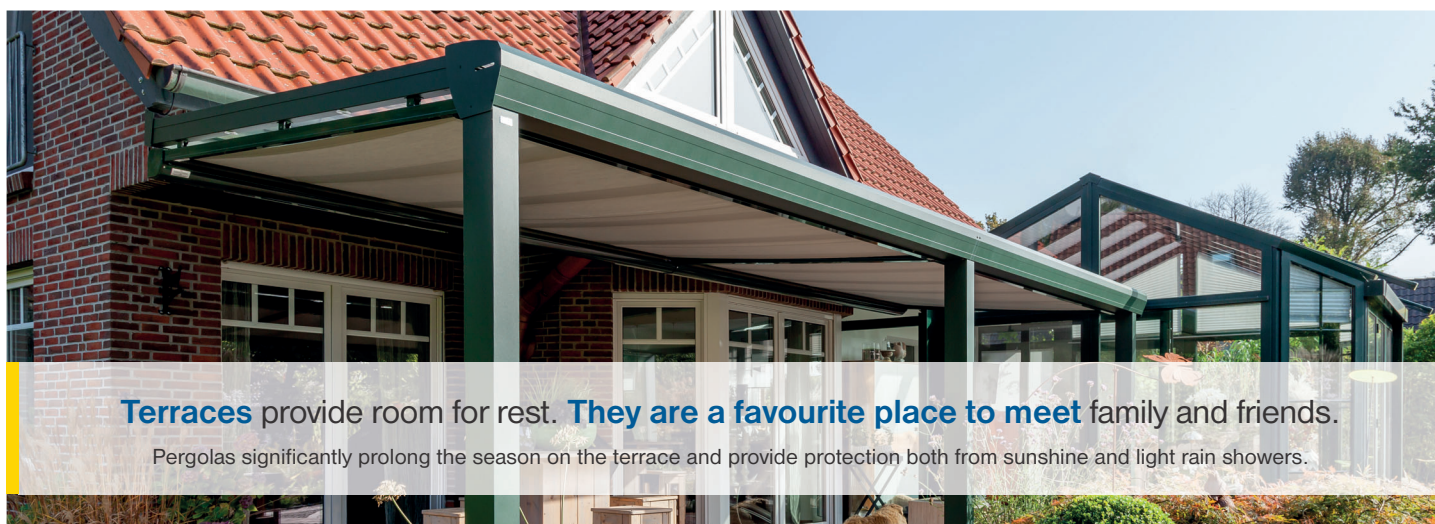

SHADING FOR PERGOLAS AND CONSERVATORIES

- designed for installation on already prepared construction with a roof
- it prevents overheating of the space under the pergola or interior of the conservatory
- a modern way of shading terraces of family houses and outside seatings of cafes and restaurants
- it creates a pleasant shade even on hot summer days
- it prevents sunlight from entering the interior of the house
- it protects your garden furniture from the effects of sunlight and extends its service life

CLIMAX 
Sunscreens by Servis Climax a.s.

Terraces provide room for rest. **They are a favourite place to meet** family and friends.

Pergolas significantly prolong the season on the terrace and provide protection both from sunshine and light rain showers.

CONSTRUCTIONS

- » side guiding is in lateral side guide rails
- » standard colours: white (RAL 9016), aluminium (RAL 9006) or structured anthracite
