

# UNIROL 100 Z/R/C

## VERTICAL FAÇADE AWNING

- it represents the trend in outdoor shading in the last few years
- it excellently shades and adds a modern look to the façade at the same time
- to increase the wind resistance it uses a zip that is welded to the fabric sides
- a wide range of systems available in several colours
- high-quality fabrics resistant to colour fading
- a choice of perforated fabrics (with holes) that enable a contact with the surroundings even when the awning is pulled out
- with a suitable fabric it makes the interior totally blackout
