YEARS
WARRANTY

NO CHANCE TO AN ANNOYING INSECT!

Insect screens do not obstruct the view outside, they will make your sleep more pleasant and create a safer environment for your family. We offer a wide range of screens for windows and doors. Everything made to measure and with a 4-year warranty.

CLIMAX INSECT SCREENS

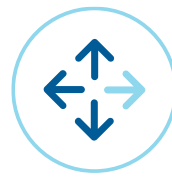

Protects against
insect and pollen

For both big
and small areas

Various design

Easy handling

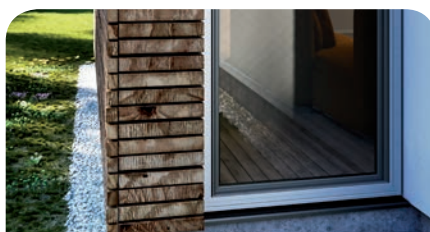

- guarantee for a peaceful and undisturbed sleep
- different colors of the screen frame allow you to match the insect screen to the color of the window
- you can find a special anti-pollen mesh in our offer suitable particularly for allergy sufferers

Main types of insect screens

Fixed insect screens

Climax fixed insect screens are primarily suited for standard windows, plastic, aluminium and wooden. They are installed directly on the window frame and when anchoring certain types of fixed insect screens, it is not even necessary to drill into the window frame. They can be easily removed for winter and placed back on the window in spring. However they can stay on the window all year round without having to be taken off.

Door insect screens

Climax door insect screens are designed for all types of doors. Door insect screens are openable and mounted on door frames using hinges. Additional options include self-closing system. In closed position, the door insect screen is held in place using magnets. For pet owners, we manufacture practical door insect screens with pet door.

Sliding insect screens

Climax sliding insect screens will guarantee you a peaceful sleep. They are suited especially for large sliding doors. However, they will also find their place on French windows or on terrace entrances. For their installation, it is necessary to plan for sufficient room for the insect screen sliding to the side. Thanks to integrated travel wheels, using them is very smooth and quiet.

Sliding insect screens

Climax sliding insect screens will guarantee you a peaceful sleep. They are suited especially for large sliding doors. However, they will also find their place on French windows or on terrace entrances. For their installation, it is necessary to plan for sufficient room for the insect screen sliding to the side. Thanks to integrated travel wheels, using them is very smooth and quiet.

Door roll-up insect screens

Climax door roll-up insect screens are the ideal solution for doors around which there is not enough room. The advantage is that the insect screen is quickly pulled up into the protective box whenever you need to walk through the door. Pulled up insect screen is held in place using magnet. Door roll-up insect screens are suited for all balcony doors or terrace entrances, which are not very busy.

Pleated insect screens

Climax modern pleated insect screens are not only effective protection against insects but also a modern accessory for balcony doors and terrace entrances. The pleated insect screen is made of a pleated fabric that will decorate your home. The mesh is non-corroding and handles well temperature differences. The insect screen is protected against accidental opening by magnet. Bottom guide profile is only 7mm high.

Mesh

It is made of fiberglass, which is not subject to corrosion and tolerates well temperature differences. For an extra charge, it is possible to choose reinforced mesh or anti-pollen one. You can select a mesh that is black, grey or transparent.

Accessories for door insect screens

Pet doors can be added to opening door insect screens (with 30x35cm dimensions for a dog or 18x18,5cm dimensions for a cat). Door insect screens can also be fitted with gutter partition and inner handle.

Color options

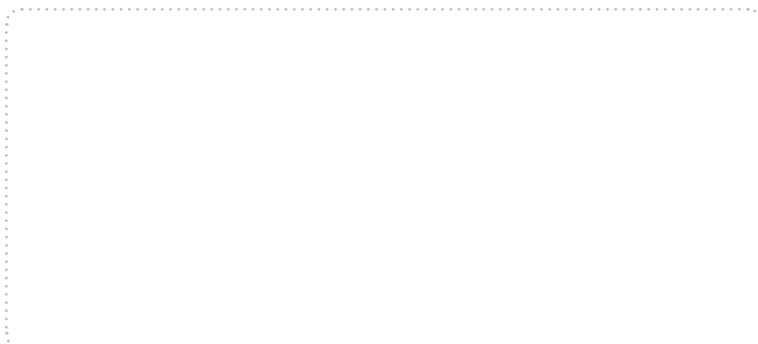

Everyone can choose from our wide range of colours and shades! Depending on the type of mesh, there is an option to choose the version with modification in standard RAL colors, in wood imitation, silver elox or varnishing in other RAL colors. If you want to be sure about choosing the right colour, visit the store of one of our Climax partners who have colour collections available and will be happy to advise you on the choice.
